

Parenting the Love and Logic Way

For parents with children ages 11-17

Find us online!

When parenting youth, the focus is often on the early years. However; as youth transition through adolescents to adulthood their parental needs change. Wise parents learn how to adapt their parenting approach to guide their teens toward a successful future. Join other parents of teens and learn the following and much more. Teens are encouraged to attend class during week 3 to engage with the group in a fun and lively conversation.

How to maintain a positive relationship

Communication strategies that work

How brain development impacts behavior

How to set limits you can enforce

How to help your teen handle peer pressure

How to reduce your parenting stress
